- **Institute Management System – Laravel, MySQL, Bootstrap**

- Developed a full-featured web-based system to manage institute operations such as student registration, faculty management, course scheduling, and fee tracking.
- Implemented secure authentication and role-based access control for Admin, Faculty, and Student dashboards.
- Designed database schema for students, courses, fees, and attendance with relational integrity.
- Integrated CRUD operations with validation, file uploads, and reporting modules.
- Improved usability by creating responsive UI using Bootstrap and Blade templates

- **Smart Zone Access Management System (Foot on Floor) – React, Laravel API, MySQL**

- Built a web and mobile integrated system to manage plant visitor entry and exit using QR code authentication
- Implemented zone creation feature where admin defines areas using latitude and longitude, and system auto-generates a QR code for that zone.
- Developed functionality for mobile users to scan QR codes to mark in/out attendance for plant visits.
- Created secure backend APIs in Laravel with role-based access control and frontend using React for responsive user experience.
